

CB - Bug #2708

J1.7 : Modules missing j1.6/j1.7 client attribute in XML

10 August 2011 06:54 PM - krileon

Status:	Closed	Start date:	10 August 2011
Priority:	Normal	Due date:	
Assignee:	beat	% Done:	100%
Category:		Estimated time:	1:00 hour
Target version:	CB 1.7.1		
Description			
<p>The XML files for CB modules are missing the client attribute determining if front or backend. This is normally fine as it assumes "site" however if API calls are made to retrieve the client attribute it appears to try and pull directly from XML resulting in errors.</p> <p>https://www.joomlapolis.com/forum/154-advanced-members-support/172598-modcblogin-missing-client-attribute-in-cb-17</p>			

History

#1 - 14 October 2011 07:41 PM - krileon

- File mod_cblogin.xml added
- File mod_comprofileronline.xml added
- File mod_comprofilermoderator.xml added
- Status changed from New to Resolved
- Assignee set to beat
- % Done changed from 0 to 100

Attached are J1.5/J1.7 XMLs. CB Content and GJ modules updated on SVN.

#2 - 28 October 2011 06:04 PM - beat

- Subject changed from Modules missing j1.6/j1.7 client attribute in XML to J1.7 : Modules missing j1.6/j1.7 client attribute in XML
- Status changed from Resolved to Closed
- Estimated time set to 1:00 h
