

CB - Bug #2763

Curvycorners conflicting with templates in IE

13 September 2011 09:16 PM - krileon

Status:	Closed	Start date:	13 September 2011
Priority:	Normal	Due date:	
Assignee:	beat	% Done:	100%

Target version:	CB 1.7.1		
Description			
<p>Curvey Corners JS library appears to be conflicting with various templates in IE. It appears to only be loaded in IE according to outputCbTemplate. Nor could any usages of Curvey Corners be found in CB source. Seems safe to remove for future release.</p> <p>https://www.joomlapolis.com/forum/153-professional-member-support/175453-problem-with-plan-subscription-page-and-ie?limit=6&start=18#176151</p>			

History

#1 - 13 September 2011 10:24 PM - beat

Curvy corners is used in rounded displays in CB.

We need to make it more solid or remove it all together.

At very least we now need to check for IE version, now that IE9 implements some CSS3.

#2 - 28 October 2011 11:30 PM - beat

In comprofiler.class.php it already checks for IE and IE < 9 :

```
$useragent = isset($_SERVER['HTTP_USER_AGENT']) ? $_SERVER['HTTP_USER_AGENT'] : "unknown";
if ( strstr( $useragent, 'MSIE' ) ) {
    $matches = null;
    if ( preg_match( '/MSIE\s(\d+\.\d+)/i', $useragent, $matches ) ) {
        if ( $matches[1] < 9 ) {
            // Internet Explorer before version 9 doesn't understand curvy corners: help it:
            $_CB_framework->document->addHeadScriptUrl( '/components/com_comprofiler/js/curvycorners.js',
true );
        }
    }
}
```

#3 - 28 October 2011 11:48 PM - beat

- Status changed from New to Closed

- Assignee set to beat

- Target version set to CB 1.7.1

- % Done changed from 0 to 100

- Estimated time set to 2:00 h

r1595 Updated curvyCorners to 2.1 stable from 2.1 pre5. Maybe that fixes that conflict ?

Worth a test with CB 1.7.1.
