<b>Description</b>			
<p>Some users are getting caught in a redirect loop with Reset Password when CB tries to block access to the Joomla profile edit page. The exception behavior for Reset Password maybe unreliable in some cases. Needs further investigation. If possible see if Reset Password can simply work with CBs profile edit instead of needing Joomla's.</p> <p><a href="https://www.joomlapolis.com/forum/255-developer-members-support/239749-err-too-many-redirects#307208">https://www.joomlapolis.com/forum/255-developer-members-support/239749-err-too-many-redirects#307208</a></p>
