Description
If the user uses the disable/delete account confirmation link while not logged in and the field is on a tab marked Registered the confirmation will always fail. The field check in the case of a valid token being supplied should only be checking if it’s enabled or disabled.

https://www.joomlapolis.com/forum/255-developer-members-support/241011-cb-privacy-plugin-account-deactivation-only-works-if-user-is-logged-in#312727

History
#1 - 10 September 2019 04:54 PM - krileon
- Status changed from Assigned to Resolved
- % Done changed from 0 to 100

This will now only confirm field access if a valid token isn't provided. The token acts as a means of validation that they can disable/delete their account.

#2 - 10 September 2019 06:09 PM - krileon
- Target version changed from 945 to 6.1.0

#3 - 11 September 2019 05:28 PM - krileon
- Status changed from Resolved to Closed
