

CB GroupJive - Bug #7829

Forums: category selection calling wrong function

30 January 2020 05:44 PM - krileon

Status:	Resolved	Start date:	30 January 2020
Priority:	Normal	Due date:	
Assignee:	krileon	% Done:	100%
Category:		Estimated time:	0:00 hour
Target version:	3.4.1		
Description			
Category selection is calling the GJ category function instead of forum category selection. This also needs a count limit check like groups to avoid having a dropdown attempt to populate with 200+ options.
